

# No Sew Blanket

One of our favorite things to do is to make a no sew blanket to take up to our mountain picnics. They are so fun to do with a friend or another family member. A great way to spend an hour.

## You Will Need:

- **2 coordinating fiber fleece fabrics, 2 yards each.**
- **Sharp fabric scissors**
- **1 tape measure**

**1.** Take your first piece of fabric and lay it down on the floor.

**2.** Cut off the two selvedge sides.

**3.** Do the same thing with the second piece of fabric.

### **No Sew Set-up**

1. Lay your first piece of fabric face down on the floor.
2. Take your second piece of fabric and lay it on top of the first with the wrong side down, right side facing up.
3. Take your tape measure and measure a 4 inch x 4 inch square on each corner.

**4.** Cut a 4 x 4 inch square out of each corner.

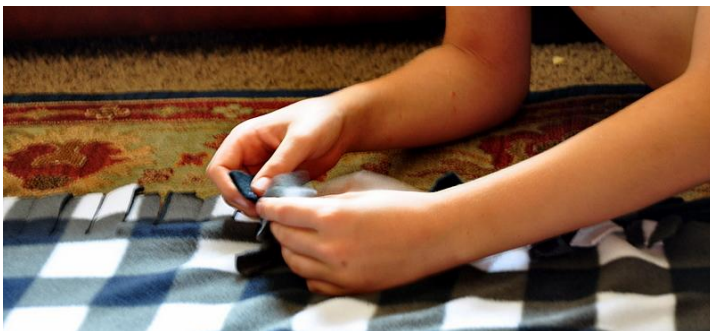

**5.** Take your tape measure and spread it out from one 4x4 corner to the next. Lock the tape measure in place.

6. Cut one inch slits which are 4 inches long around each side of the blanket.

7. Now it's time to knot the blanket. Take one cut slit of fabric. You will have two pieces of fabric per cut. One from the top and one from the bottom. Just make an over hand knot on each slit all around the blanket.

Now it's time to enjoy your new blanket.
