

Pirate Cannonball Catapult

Pirate's had to be ready to defend the ship at all costs, even their lives. If you weren't ready to fight and you survived, you lost your part of the looting.

We become human catapults for this game. Divide into two equal teams. Fill a balloon partially with water and give each team one balloon. Each team sits down

in straight lines. On “Go”, the first person in each team, places a water balloon between their feet (using only their feet) and passes the balloon over their head to the person behind them, who receives the balloon, using only their feet. The relay continues until the balloon is passed all the way to the end of the line. If the balloon should break, you must start again at the beginning of the line. The first team to get their balloon to the end of the line wins.

A drier version of this is to take a nerf ball and play with the same rules. If one of the players drops the ball then you have to start back at the beginning of the line.
